ANNOUNCEMENTS.

For State Treasurer.

We are authorized to announce H. H. HENNING, Wayne county, a candidate for the office of State Treasurer, subject to the action of the Democratic party.

For Railroad Commissioner.

We are authorized to announce R. Owen Cochran, of Spencer county, a candidate for Railroad Commissioner, of the Second district, subject to the action of the Democratic party.

King Edward is now able to sit up, but he is far from being a well man.

Cholera is raging in the far East, people dying by the hundreds daily.

Suppose a State primary should be called, about what time would the declaration of principles be adopted, and who would adopt them?

The Democratic conventions held in the Third Congressional district last Saturday insure the nomination of Hon. John S. Rhea.

Floods in Texas did a great deal of damage last week to crops and property, thousands of dollars being lost.

Mr. J. C. Hutchinson, of Warren county, is a candidate for Commonwealth's Attorney in the Glasgow district, subject to the action of the Democratic party.

Kill and Dorn Smith arrived in San Francisco last Friday and rejoined the fleet for the first time that he had been dismissed from the army by President Roosevelt. He broke down and refused to give out a statement.

The Kentucky Life Insurance Company has been merged into the Illinois Life Insurance Company, the latter company reinsuring all the risks of the Kentucky Company. The general office for this State will be in Louisville.

As we predicted Mr. W. P. Walton bought the Lexington Democrat. He is now at home and will preach Democracy from the rising of the sun to the setting thereof. Desha Breckinridge will conclude after while that he is neither "it, nor she."

Hon. L. T. Neat and Hon. M. Yarberry were at the Court-house last Saturday afternoon. Neat represented Col. Colson, Yarberry exposed the case of Mr. Boreing. The court was well filled with voters and speakers were accorded good attention. Mr. Neat was violently opposed to the "ins," and those who wanted to "ins," that is to say, the infants in his party. Mr. Yarberry was enthusiastic for Mr. Boreing, claiming that he was the greatest Congressman that ever represented the Eleventh district. He made a strong argument in favor of his choice.

Miss Laura Talbot, a thirteen year old girl of Louisville, is the idol of all true ex-Confederate soldiers. A few months ago, while in school in Louisville, she refused to sing, at the request of her teacher, "Marching Through Georgia." Last week at Owensboro there was a reunion of Confederates and Miss Talbot was present by invitation. Ex-Congressman Eli presented her a medal sent by old soldiers of Georgia, and when the little girl accepted it she said that the reason she refused to sing the song it was General Sherman's only claim to greatness. When she made that statement the 4,000 people present went wild.

The Louisville Times remarks: "Oh liberty, how many crimes are committed in thy name!" We are here to say that no truer explanation could be made and none in the realm of the political world embodies a broader subject for thought. Liberty, political freedom—a state of society where every person is his own master, where all stand on the same broad plane with no earthly master to oppress and no selfishness of sovereignty to obey. Living under a sacred compact that guarantees protection to life, liberty and the pursuit of happiness—a freeman in the broadest sense, is one of the greatest blessings that has ever been instituted by men. This condition was the original idea and hopes of the founders of our government; it was the main spring of inspiration that kept back English greed, that dispersed the master-servant spirit and drove from our land the iron heel of oppression. It was born under adverse circumstances, the product of great sacrifice and it reached its vigor and prestige by the untiring fidelity of its founders, but alas how true that crimes have been committed in its name. The age is here when the blood-stained snow of Valley Forge has disappeared; the time has come when the price of liberty seems to be at a discount. Unbridled ambition, gigantic scheming and wholesale trespassing on the rights of the great bulk of the people are playing havoc with the life of that liberty enthroned; in 1776. Liberty is not the product of schemes and money. It was not conceived for the purpose of establishing Monopolies, Conquering and ruling a foreign people, but to the opposite, it sprang from pure motives of great men for the purpose of protecting the weak from the encroachment of the strong, for blocking out the line between master and servant, for making every individual the equal of a monarch. It was the result of the best talents and purest and noblest motives. No individual should surrender more than another, no community subordinate and no set or class was to surrender rights for the specific advantage of others. All to make an equal sacrifice and all to enjoy the same privileges. Under this agreement our government started the purest, freest and noblest consummation of any age. But to-day no one will assert that all enjoy the same privileges, no one will deny that we have forsaken the channels of our forefathers. No one can overthrow the fact that both Millionaires and tramps are multiplying, that Corporate power is the master and the great majority of people servants. Who disputes the fact that we have placed under our control nearly as many people as rebelled against King George? They are promised good government but the American Colonies were likewise promised. "Oh liberty, what crimes are committed in thy name."

Candidates with money to burn would be the only ones in shape for a primary election.

The Republican sheriff of Logan county is said to be a defaulter to the tune of nearly \$80,000.

RELIX.

Rain is badly needed in this part.

Misses Neale Dockery and Alice Bragg, of Jamestown, were here last week.

THE REPUBLICAN PRIMARY.

The Republican primary to nominate a candidate to represent the Eleventh District in the next Congress was pulled off last Monday, Mr. Boreing winning by a decisive majority.

All the precincts in Adair have reported and on the face of the returns his majority is 555. The election was quiet throughout the day, not a single disturbance being reported. Under the circumstances the Colson forces made the best fight they could, being without the necessary werewithal to secure a certain class of votes. Money was freely used and voters flocked to Boreing like sheep jumping over a fence.

Casey gave Boreing 463 majority, Wayne 400, Clinton 43, Cumberland in doubt and Russell tied. A dispatch from Boreing to Hon. M. Rey Yarberry states that he carried 18 of the 19 counties in the district; that his majority in Laurel county over Parker is 800, over Colson 1,200. Estimated majority in Whitley 1,200 and in Pulaski 1,800.

When the polls closed yesterday, and long before the Colson people could read the hand writing on the wall. It was plain to them that they were powerless to resist or to check the stampede to Boreing and were as confident of their defeat as the other side was elated over their victory. The power of money was never more plainly felt in a contest of this kind. Joy reigns supreme with the leaders of the victor in this section and many of the Colson workers and supporters feel that it was not the result of Mr. Colson's unpopularity, or that his ability is at a discount, but that it was bought with the stuff that makes the mare go.

From early morn 'till close of day, The Boreing leaders held the sway, They had the stuff, they had no gall And now they have the whole thing.

The Colson men were brave and true And made a fight for flintors too, They had no cash, they had no gall And so they lost the thing in all.

DEATH OF MRS. JENNIE TAYLOR

People throughout Adams county were surprised and shocked last Thursday morning when they learned that Mrs. Jennie Taylor, the estimable and devoted wife of Dr. U. L. Taylor, had passed away.

It was known from town that Mrs. Taylor was sick, but alarming symptoms did not set in until a few days before she died. In fact, the morning before her demise she was thought to be better and that afternoon was made about 12 o'clock Wednesday she grew rapidly worse and continued to sink until 6 o'clock Thursday morning when her spirit went to meet its God.

Mrs. Taylor was a daughter of James and Elizabeth Patterson and was born and reared in Adams county, her birth being June 3, 1831, making her sixty-eight years old at last birth-day.

She was married to Dr. U. L. Taylor December 20, 1857, with whom she lived happily forty-five years.

Her husband and two children survive her, Mrs. J. W. McGuffey, Jr., of Richmond, Ky., and Miss Mable Taylor, of this place. It was a devoted family, a household where contentment and the religious life were the rule.

The disease was protracted by the wife and mother brings sorrow that only the blessings of the Meek and lowly Savior can heal.

At the close of religious services last Monday Mrs. Taylor removes the last member of the Patterson family to which she belonged and her husband is the only survivor of his father's family.

The deceased was a member of the Christian Church having connected herself with that religious body in early girlhood. In health she never failed to attend her church services, but outside of a desire to worship her Maker she was strictly a home lady.

Her husband was a prominent physician and a devoted father. He was a member of the Adams county Agricultural Society and was a successful breeder of racehorses.

Her husband was a prominent physician and a devoted father. He was a member of the Adams county Agricultural Society and was a successful breeder of racehorses.

At the close of religious services last Monday Mrs. Taylor removes the last member of the Patterson family to which she belonged and her husband is the only survivor of his father's family.

The deceased was a member of the Christian Church having connected herself with that religious body in early girlhood. In health she never failed to attend her church services, but outside of a desire to worship her Maker she was strictly a home lady.

Special Sale.

I have just returned from market and for several days will offer special bargains in shirts, suspenders, hosiery, a neckwear, etc. I have a general line of goods, all new, and am selling at the shortest profits.

FRANK SINCLAIR.

NOTICE.

I have sold this stock of millinery goods to Miss Birdie Powell, who has been with me for the past four years, and she will continue the business at the same place, over Hughes & Coffey's store. I thank my friends for the very liberal patronage they have given me, and ask them to continue it with Miss Powell.

Respectfully,

MRS. EMMA T. STRANGE.

I have purchased Mr. Emma T. Strange's stock of millinery, and in the next three weeks will leave for the Louisville and Cincinnati markets to buy my fall stock. While there I will secure a first-class trimmer, who will be selected by Mrs. Strange, and the people of Adams and adjoining counties are assured that they will be supplied with the most stylish goods that can be had. I have the purchased stock on hand, which contains many misdeeds and other goods, which I am offering at greatly reduced prices. I respectfully ask a continuance of your patronage.

MISS BIRDIE POWELL.

The buying of advertising space is a subject on which some merchants dwell but little. They think there is no difference between the space offered in one medium at a low price and that offered in another at a high price. The paper that has a lively circulation and where the steady management is to make a profit for the paper will have a circulation value than the circulation which comes from a few of being lively. The live newspaper ought to cost more and is certainly worth more to the business man than that which only schemes for economy and care little for its news reputation.

Fiction is what people want in hot weather, and in August Woman's Home Companion, the first reader has a treat. "A Black Mystery," by Robert Barr, and "The Poet of the Butcher," by Octave Thanet, are among the new. "A Chemical Comedy," by Morgan Robertson, is a humorous tale of the sea. "Ozma Watana" contributes "A Japanese-American Love Story" and in "A Lake Country Elopement" Louis Pendleton gives a charming picture of love in the Canadian wilderness. A feature likely to create a discussion is Mr. Hudson Maxima's "How the World Will End." "The Resurrection of the Ape," "A Dutch Kitchen" and "Lace-Making" are all original and to the point. Published by the Crowell Publishing Co., Springfield, Ohio; one dollar a year; ten cents a copy; sample copy free.

A PARTY ALIGNED.

Continued discussion of the amazingly impotent record made by the Republican majority in the first half of the Fifty-seventh Congress reveals the fact that there is Republican as well as Democratic criticism of the session's shortcomings.

This is not strange when it is remembered that Republican protectionists in Congress were compelled to muzzle many Representatives who felt that the time for tariff revision had come and that it was time also to take other action in the people's behalf as against the oppressive trusts. For the first time in many years there were signs of deep dissension on the tariff and trust issues. Heretofore, ever since the tariff created the trusts and placed the American people in their power, the party of the tariff and the trusts has stood firm in its malignant alignment against the people.

Now, however, it is plain that some members of the party correctly interpret the signs of the times and perceive that Republicanism is about to be condemned and punished for its betrayal of the people to the trusts. It is these Republicans who urge a belated Republican revision of the tariff and legislation against the trusts. President Roosevelt, powerless to secure fair play for Cuba, is promising that Congress will pass an effective anti-trust law. He can no more make this promise good than he was able to pass the Cuban reciprocity bill. He is talking against the wind, as also are those Republicans who plead for tariff revision.

There is but one way to secure a revision of the Dingley tariff and a correction of the trust evil. The party which stands for the tariff and the trusts must be defeated at the polls. The party which stands for the people must be placed in power instead. Democratic victory in 1902 and 1904, and this alone, will free the American people from the oppressive burden of the tariff and the trusts.

One fare the round trip will be given on all railroads to the Lexington Horse Show, Fair and Carnival, Aug. 11-16. The Q & C will put on a special train from Somerset and Williamsport, and the L. & N. will have a special train to reach Lexington each day of the fair at 10 o'clock from Richmond and Farmington. The Richmond train will have Lexington cars even at 10 o'clock, while the Farmington special will pull out leaving minutes after 10.

REFUSED A BIG CHECK.

In the make up of the world, God has created many men, but comparatively speaking he has made but few statesmen who have the good of the plain people at heart.

Gov. Goebel had just gained a judgment in court against a railroad company for a large amount. He had retired to his boarding house in Covington, Ky., and was resting himself from a two hours' argument when a representative of the road came to him presenting a ten thousand dollar check as a retainer in another case of the company before the court, as his services were then regarded of incalculable value in that emergency.

He peered through the doorway, where in the distance he saw a group of children playing upon a sand bank, then he turned to his visitor and said in tones so emphatic as not to be misunderstood: "My services are retained already by those children, whose destinies await the action of all true men who have their welfare at heart." The check was refused.

This incident was related to a gentleman in this city, by the lady with whom he boarded, besides she said his demeanor at all times was most guarded and in all things he calculated well before acting.

His friends at home were not all Democrats. There are hundreds of Republicans who say of him personally that he was a great and good man.

TRAGIC DEATH.

The Danville Advocate contained the following thrilling story:

Mrs. Kaiser, a native of Germany, died at her home near the German settlement, south of Junction City. She was all alone at the time of her death, all her children, except one boy, being in St. Louis, where they had found employment. When found she was sitting up in bed, and death had evidently occurred some time before, as decomposition had already set in. Her surroundings showed that she had died in circumstances of the utmost destitution. There was neither clothing nor food to be found in the house. Her only remaining son appeared to have been in ignorance of his mother's pitiable condition, as he had not notified any of the neighbors, any of whom would have been glad to have relieved her distress. She died alone, and her son did not know of her death until some time later. He notified Mrs. Geo. Rowsey, a near neighbor, who, with her daughter, went to the house. It was known that Mrs. Kaiser's reason was destroyed. Some time before her death she is reported to have been seen for the last time on top of her cable, with uplifted arms, calling for her mother and her native German land.

Mrs. Kaiser was the wife of Francis Kaiser, who moved to this country when the German settlement in the knobs was formed. A few years ago he was a familiar figure in Danville, frequently coming here to sell the produce of his farm. His wife would help to draw the wagon, being usually hitched to the wagon with a cow. Kaiser bore the reputation of being exceedingly harsh and cruel toward her.

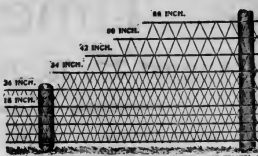

George Kowsey shot and killed Kaiser in the court house here in April four years ago, and it is stated that the shooting was originally out of the cruel treatment to which Kaiser subjected his wife. It appears that one night Mrs. Kaiser came to Rowsey's house in the knobs and begged for assistance. She had fled from her home to avoid further cruel treatment at Kaiser's hands. Rowsey and his wife admitted and cared for her, though he feared that trouble between himself and Kaiser would be the outcome. A feud afterwards arose between them on this account, and Kaiser is alleged to have mistreated Rowsey's children and to have killed his stock, the trouble finally culminating in the killing of Kaiser in the court house. It was the first day of Circuit Court, and the case was immediately taken up. Rowsey was tried and sent to the penitentiary, where he is now serving a life sentence for the murder. Since the killing of her husband Mrs. Kaiser has lived in her home in the knobs. Her sons left one by one and located in St. Louis, though one of them, when he heard of her death, returned and assisted in her burial. Mrs. Rowsey, the wife of the man who had killed her husband, took charge of the remains and prepared them for burial.

The race war at Eldorado, Ill., is not yet over. The negroes are as long as the State troops are present. And this is Illinois!

The pay of Federal grand jurors has been increased. This information will doubtless possess some interest to the professional.

ST. LOUIS RY

To those who have anticipated the condition of the industrial market, the reports from all parts of the country are of a sort to renew confidence in the continuance of prosperity.

There have been a few floods, yet necessarily the damage which they have wrought is limited to a comparatively small acreage. For every bushel lost because of high water, the uplands will yield two additional.

There never was a time, especially in the Middle West, when the corn was greener, heavier and in better condition than it is now. The hay crop is a third more than usual. Apparently the drought of last year has served to make the crop this year greater.

The top notch has been reached in prices. Corn has been higher than wheat, and oats have been higher than corn at one time or another during the past month. No cereal is selling at low prices. Live stock is selling nearly high enough to limit consumption.

There is absolutely nothing to spell the agricultural prospect. The only danger is that the bullish feelings will overshoot the mark and cause abnormal values which will do ultimate harm to every form of industry. Only the good sense of the investing public can prevent the usual inflation and reaction.—St. Louis Republic.

Strained relations still exist between the Hargis and Cockrell families in Breathitt county.
